Jesus founded a missionary movement that now spans the globe. As his followers we are called to continue his mission in the power of the Holy Spirit.

Movements that change the world.

Steve Addison will challenge participants to see the world through a Movements paradigm.

He will draw on twenty years of research and practice that led to his book *Movements that Change the World*.

He will unpack the five characteristics of disciple making movements: white-hot faith, commitment to a cause, contagious relationships, rapid mobilization and adaptive methods.

This is a seminar for anyone who is serious about multiplying disciples. Everywhere.

Steve Addison serves as Australian director of Church Resource Ministries.

His calling is to spark church planting movements - everywhere.
